The SINGER® 7442 is a fully electronic sewing machine. It has a full range of utility, decorative, quilting, heirloom, and stretch stitches. Each stitch is electronically formed and optimally set, which means every stitch is sewn with exact precision. The SINGER® 7442 threads quickly and easily with its 6-Second Threading System. And with Pushbutton Stitch Selection, even selecting a stitch is a snap.

All-New Fully Electronic SINGER® 7442
