QUANTUM® 9940

A cut above the rest.

A sewing machine is special when it helps you unleash your creative potential. An outstanding selection of exquisite stitch programs is what you need once you've discovered the joy of computerized sewing. The **QUANTUM® 9940** lives up to these high expectations while helping you create uniquely embellished items that are a feast for everybody's eyes.

Forget about reading instruction books! Its large LCD screen tells you what to do, with easy-to-follow pictograms plus audible/visual warning messages. Broken thread? Full memory? You are alerted immediately. The screen also displays the selected program, stitch and presser foot recommendations plus other helpful information.

At **SINGER®**, we want to help you bring your great ideas to life. That's why the **QUANTUM® 9940** is equipped with an outstanding repertoire of stitches (up to 7 mm wide) with mirrored, reversed or elongated image variations, plus three alphabet styles. The result is a tremendous number of stitch options for creating out-of-the-ordinary, treasured items.
