

**SINGER** | Finishing Touch™

**Model 14SH654**

Feature	Benefit
Easy Threading Diagram	The threading diagram shows how easy it is to thread the machine.
Color-Coded Lay-In Thread Tension	With complete, easy-to-read diagrams, this feature makes threading a snap. Just follow the color-coded diagram on the machine for effortless threading.
4-3 Stitch Configuration	The different stitch types ensure the perfect stitch, regardless of the project: Blind Hems, Rolled Hems, Flatlocking, finishing raw edges and joining seams.
1,300 Stitches-Per-Minute	Sews up to 1,300 stitches per minute—a real time-saver.
Built-In Rolled Hem	Converting to the rolled hem sewing mode is effortless. An easy access lever moves the stitch finger into position for rolled hemming.
Extra-High Presser Foot Lifter	There are 2 heights to the Presser Foot Lifter. The second height offers extra clearance, which is needed when placing multiple layers of fabric under the presser foot.
Differential Feed	Fully adjustable to ensure even feed for perfect seams on every fabric - no breaking or puckering. It is also useful for keeping stretch fabrics and bias cut fabrics from becoming “stretched out”.
Moveable Upper Knife	Don't want to trim as you sew? Just roll the Upper Knife into the non-working position and the machine will stitch, but not trim the fabric.
Stitch Length Dial	The Stitch Length Dial is conveniently located on the outside of the machine and can easily be adjusted to personalize the length of the stitch.
Electronic Speed Control	Guarantees consistent sewing speed with no jump starts.

**SINGER** | Finishing Touch™

**Model 14SH654**

Feature	Benefit
Portable	The built-in carrying handle, making it trouble-free to transport the machine.
Free Arm Sewing	Remove the cloth plate to access the free arm, making it easy to sew difficult-to-reach areas such as armholes, cuffs and smaller projects such as children's clothing.
Accessories	Tweezers, Needle Set, and Screwdriver.
Warranty	25 year manufacturer's defects, 2 year electric and electronic components, 90 days parts and labor.
Four-Thread Mock-Stretch Stitch	This stitch is a favorite when sewing a knit fabric because the stitch stretches as the fabric stretches. This provides strong and professional finishes that will not "pop" when the fabric is stretched.
Three-Thread Overlock Stitch	This stitch provides a wonderful professional seam finish. It is beneficial in preventing loosely woven fabrics from unraveling, and it offers unlimited decorative capabilities.
Rolled Hem Stitch	Beautiful Three thread rolled hems can be created to add an elegant fine finish to table linens, scarves, and much more.
Flatlock Stitch	For true decorative flair on any project. Special decorative threads can be used to add texture and a dramatic embellishment effect.
